

Electronic Tank Monitoring System

We are now offering a revolutionary new Wi-Fi tank level monitoring program available to all Krall Energy Group customers. This includes both automatic delivery and will call heating oil customers. With this new technology, both you and our office staff can safely and accurately monitor your fuel levels for enhanced peace of mind.

Features & Benefits of Tank Monitoring:

- Durable, electronic tank sensor adds peace of mind to your old manual gauge
- Intuitive iPhone/ Android App
- See fuel levels and usage history from anywhere in the world
- Installed by one of our licensed service technicians

* plus tax

Our Guarantee

If your home ever runs out of fuel while on our electronic home monitoring system and you are on automatic delivery, the Krall Energy Group will provide the following free of charge:

- 50 gallons of fuel
- Emergency service to restart the system

Electronic Tank Monitoring Terms & Conditions

1. Customers can be on an active automatic delivery program or a will call program.
2. Customers must be in good credit standing.
3. Normal delivery schedule will result in deliveries of approximately 3/4 of an oil tank's full capacity.
4. Circumstances that will result in a service charge.
 - a) If service with the Krall Energy Group is terminated for any reason, the monitoring system must be removed by the Krall Energy Group within 30 days for a labor charge of \$99 and the customer is responsible for the equipment cost (\$150.00). If the home is sold, the monitoring equipment may be transferred to the new homeowner under the terms of the existing contract.
 - b) If the homeowner receives a delivery from another provider the electronic tank monitoring program becomes null and void, and the tank monitoring equipment must be removed immediately and be returned to the Krall Energy Group with the above fees.
 - c) Automatic delivery requires that the driveway and access to the fuel tank be cleared and available at all times for safe filling.
5. The electronic monitoring system for oil tanks requires a Wi-Fi internet connection.
6. The monitoring system is provided on a lend / lease basis and remains the property of the Krall Energy Group.

No Run-out Guarantee

If at any time an electronically monitored home that's on automatic delivery runs out of fuel resulting in NO-HEAT, the Krall Energy Group will provide the following free of charge:

- 50 gallons of fuel
- Emergency service to restart the system

The no run-out guarantee requires that customers in the electronic tank monitoring program are fully compliant with all terms and conditions listed above and the customer is on automatic delivery.

I understand and will abide by the above Terms and Conditions for the Krall Energy Group Tank Monitoring System.
